MUBEEN TAHIR

Civil Superintendent Engineer

Phone: +966 59 703 8278/ +966 51 147 2751
Email: mubeentahir1201@gmail.com
Location: Al Hafuf-Dammam - Saudi Arabia.

EXECUTIVE SUMMARY

Experienced Superintendent Engineer with nearly 10 years in civil engineering, specializing in high-rise buildings, villas, infrastructure utilities, and landmark projects like Pak Army Grand Mosque Project, NEOM Spine Line Project, Amaala Project, and Saudi Aramco jafura Transmission Gas Pipe Line Wellpad, Thrust Anchor Block Project. Skilled in project planning, execution, quality control, and compliance with standards. Proficient in Quantity Surveys, Material take off, Bar Bending Schedule, concrete estimation, structural and architectural work, interpreting civil drawings, and coordinating multidisciplinary teams to ensure efficient project delivery. Known for attention to detail, problem-solving, and expertise in national and international construction methodologies, ensuring quality results in fast-paced environments. Experience in managing on-site challenges, optimizing resources, and implementing cost-effective solutions to drive project success.

EDUCATIONAL BACKGROUND

Bachelor of Civil Engineering (B.S.C)
Imperial College Of Business Studies | Lahore - Pakistan.

D.A.E - Associate Engineering Civil Technology
Punjab Board of Technical Education | Lahore - Pakistan.

CORE COMPETENCIES

- Construction Management
- Risk Assessment & Mitigation
- Procurement Management
- Project Documentation
- Quality Control (QC)
- AutoCad 2D + 3D
- Project Management
- Cost Optimization
- Leadership Skills
- Problem Solving Skills
- Construction Estimating
- Contract Management
- Effective Communication
- Performance Tracking
- Safety and Compliance
- Method of Statement

TECHNICAL SKILLS

- M.S Office Proficient
- Adobe Photoshop
- Windows
- Coral Draw

WORK EXPERIENCE

Civil Superintendent Engineer @ Dynex Arabia - Saudi Arabia **July 2024 - Present**
Project: 13 Gas Wellpad, Thrust Anchor Block, Pipe Line & Burn Pit. HZEM-1 ,HZEM-3,HZEM GCP-4,HZEM GCP-5 HZEM-7 area .

Precast Yard Responsibilities:

- Overseeing aspects of Precast Yard operations, ensuring efficient workflow, production, & quality control.
- Managing the entire process of Steel Cutting, Bending, and Rebar Installation, ensuring accuracy in execution and adherence to project specifications.
- Supervising the planning and execution of Formwork activities, ensuring proper assembly, and alignment.
- Overseeing systematic and efficient Material Storage, ensuring organized inventory for easy tracking.
- Managing safe and effective Material Handling processes to ensure timely transportation and proper movement of materials within the project site.

On Site Responsibilities:

- Responsible for arranging and overseeing all types of excavation, including structures, trenches, and duct banks, ensuring compliance with safety and quality standards.
- Manage the efficient backfilling of well pads and burn pits, diligently overseeing marl capping processes.
- Supervise foundation alignment, installation, and scaffolding work for structural stability.
- Extract quantities from soft copy of engineering drawings using AutoCAD for accurate material estimation.
- Prepare calculations and reports using MS Excel for thorough review and approval by the Project Manager.
- Ensure all engineering activities are costed and executed within the approved design framework.
- Verify that all complete, approved, and thoroughly validated designs are properly delivered well in advance before project execution begins.
- Facilitate clear communication between contractors and the project team, aligning with the project goals.
- Ensure strict adherence to established engineering standards, safety regulations, and comprehensive quality control measures through regular periodic inspections.

Civil Sr.Engineer @ Project Pioneer Cont. Co. PPCO **Nov 2022 - Jun 2024**
Saudi Arabia. Project: The Spine Line Rail Connector.
Scope of Work: Earth Work Cutting, Filling, Leveling, Haulage, Slops & Slops protection, Shotcrete, Rock bolts, Spot bolts, Veep holes.
Key Job Responsibilities and Work Nature:

- Prepare & submit Daily, Weekly, & Monthly reports, ensuring accurate documentation of project progress.
- Enforce strict compliance with all contract specifications, industry standards, and essential safety regulations through diligent oversight.
- Ensure the proper allocation, operation, and maintenance of heavy equipment and vehicles to optimize efficiency and productivity on-site.
- Oversee site supervision, ensuring efficient coordination and smooth execution of construction activities.
- Conduct regular site surveys to monitor progress, identify potential issues, and ensure compliance with safety standards, project specifications, and quality requirements.
- Maintain a safe & secure work environment by implementing required safety protocols & site procedures.
- Manage and execute excavation, blasting, cutting, leveling, haulage, slope creation, slope protection, shotcrete application, rock bolt fixing, spot bolt fixing, and veep hole installation.
- pdate and manage the Traffic Management Plan (TMP) on a daily basis to align with safety regulations and operational requirements.
- Ensure timely execution of critical project milestones while mitigating risks & resolving on-site challenges.
- Oversee and control all site activities, assigning specific tasks to site supervisors and foremen to ensure smooth workflow and timely project execution.
- Conduct site inspections to ensure work quality aligns with approved technical drawings & project specs.
- Coordinate, oversee, and manage site labor efficiently in full alignment with the Construction Manager's directives and project requirements.
- Collaborate with project stakeholders to address technical issues, design modifications, progress updates.

Civil Engineer @ Petrojet Cont.Co. - Saudi Arabia. **Feb 2021 - Oct 2022**
Project: Portable Water Pipe Line (HPR to GAYAL) Design & Build of Water Transmission.
Scope of Work: Excavation, Filling, Concrete, Waterproofing, Column Layout, Beam, Block Work, Plaster Work, Finishing work.
Key Job Responsibilities and Work Nature:

- Manage & control all construction activities to ensure smooth execution and timely completion of projects.
- Supervise & coordinate subcontractors, on-site personnel, & construction teams to maintain efficiency.
- Oversee excavation, backfilling, concrete pouring, blockwork, plasterwork, and finishing activities to ensure quality and adherence to project specifications.
- Estimate quantity of Bar Bending Schedule (B.B.S), Concrete, & Blockwork for accurate material planning.
- Perform accurate quantity take-offs from soft copy drawings using AutoCAD for precise cost estimation, budgeting, and procurement planning.
- Prepare and calculate structural quantities using MS Excel and submit reports for approval to the (PM).
- Verify, review, and validate quantities in the given Bill o Quantities (BOQ) for accuracy, and compliance.
- Execute and efficiently manage structural construction activities, including finishing works, while ensuring adherence to high safety, quality, and compliance standards.

Civil Engineer @ CMH Kharian Military Engineering Service - Pakistan. **Jan 2019 - Dec 2020**
Project: Construction of CMH Hostel Building & Mosque.
Scope of Work: Excavation, PCC, Raft, Concrete, Column, Beam, Slab, Blockwork Plasterwork, Finishing work.

Key Job Responsibilities and Work Nature:

- Plan, coordinate, and oversee all site activities, ensuring smooth collaboration between the Site Supervisor, Site Foreman, and other stakeholders.
- Perform quantity takeoff from soft copy drawings using AutoCAD to ensure accurate material estimation.
- Prepare and review estimates for excavation, backfilling, waterproofing, bar bending schedules, concrete blockwork, and finishing activities.
- Prepare and validate calculations using MS Excel, submitting reports to the Project Manager for approval.
- Monitor and efficiently control project resources, including labor, materials, and equipment, to optimize productivity, efficiency, and reduce unnecessary wastage.
- Ensure all engineering activities are properly costed and executed as per approved design specifications.
- Conduct site inspections & quality checks to verify adherence to technical drawings & industry standards.
- Identify and resolve any technical issues or deviations from the design to maintain project integrity.
- Coordinate and collaborate with contractors, suppliers, and consultants to streamline project execution, ensure smooth operations, and proactively address any challenges.

Civil Site Engineer @ ARCO Construction Pvt. Limited - Pakistan. **Jan 2013 - Dec 2016**

Project: Aqwa Qaseer Ul Maqasid Trust Hospital.

Scope of Work: Excavation, PCC, Raft, Concrete, Column, Beam, Slab, Blockwork Plasterwork, Finishing work.

Key Job Responsibilities and Work Nature:

- Supervised and managed on-site construction activities to ensure compliance with project plans, & specs.
- Coordinated with architects, consultants, and subcontractors to ensure smooth execution of projects.
- Conducted regular site inspections to assess project progress, identify potential issues, and ensure compliance with engineering standards.Monitored construction materials, labor, and equipment to optimize resource allocation and prevent delays.
- Ensured adherence to quality control standards, conducting inspections to maintain structural integrity.
- Assisted in preparing Bills of Quantities (BOQs), project estimates, and cost analysis by evaluating material, labor, and equipment costs. Ensured financial control over construction activities.
- Perform quantity take-offs from digital drawings using AutoCAD for cost estimation and material planning.

CERTIFICATES & DIPLOMA

- Auto Cad (2D +3D) (6-Month Diploma) by Pakcon Technical College - Pakistan.
- M.S Office by (6-Month Diploma) by Pakcon Technical College - Pakistan.
- Adobe Photo Shop (3-Month Diploma) by Pakcon Technical College - Pakistan.

APPROVALS

- Approved by Neom as Project Civil Engineer.

TRAININGS

Fire Safety Training - Confined space Training - Excavation Training - Work Permit System - Equipment Safety - Adverse Weather Conditions

ACHIEVEMENTS

- Certificate of Appreciation for Keeping up work with Quality, Safety, and Environment.
- Direct dealing with 400 manpower, including Supervisors, Foremen, Operators, and Heavy Vehicle Drivers.
- 3 million cubic meters of excavated material safely hauled without any LTI.

LANGUAGES

English (Proficient) - Arabic (Basic) - Urdu (Native).

DECLARATION

I declare that the information presented in this resume is true and accurate to the best of my knowledge.

Session:
2016-2020

By virtue of the power granted to it by the Charter and by the authority of the Board of Governors, the College has conferred upon

Aubeen Tahir s/o Nasrullah Khan

who has satisfactorily pursued the studies and qualified for the degree of

B.Sc. Civil Engineering Technology

in the year 2020 *securing* CGPA *of* 3.02

with all the Rights and Privileges pertaining thereto.

In witness thereof we have impressed the Common Seal of the College upon this document.

LiHS

Jafurah upstream pipelines and well tie-in project

CERTIFICATE OF APPRECIATION

this certificate is awarded to:

Mr. MUBEEN TAHIR

CONSTRUCTION SUPERINTENDENT, ID # 2554214631

In gratitude of his high valuable contribution to the successful achievement of **10 million** worked manhours without LTI

given on 19th February 2025

SANTO CENSABELLA
Project HSE Manager

Maccaroni Fabio
Project Director

Date: 28 September 2023.

EXPERIENCE CERTIFICATE

To Whom It May Concern

This is to certify that MUBEEN TAHIR , was associated with our company of **Projects Pioneers Contracting Co.** in the position of Civil Engineer. He has been employed with us since the 01st of Nov 2022 to 31 th of March 2024.

During his stay we observed, he is obedient, honest and dedicated to his assignments.

We wish him all the best in his future assignments.

Regards,
